

Mission

We are a quality driven and customer focused provider of electronic design and manufacturing services. Our experienced team of electronics professionals continually strives to build lasting, synergetic relationships with our customers, suppliers, and employees. We seek growth through investment in people, processes and technology enabling us to exceed the expectations of our customers and to open doors to new opportunities.

Quality Policy

Quality is our number one Corporate Objective. To this end, the company has established the following:

- To completely understand our customer's requirements and accurately communicate those requirements throughout the organization.
- To supply products and services to our customers which meet or exceed their expectations.
- To comply with requirements and continuously improve the effectiveness of the quality management system.

To help achieve these objectives, a comprehensive quality system has been developed and implemented. The policies and practices specified in this system will be communicated to all employees fostering a team approach towards attainment of our goals.
